

REGISTRATION

The parent/guardian of each student is required to fill out registration papers when the student enters for the first time during the school year, even if the student was enrolled the previous year.

PLEASE NOTE: It is very important that the information on these papers be updated as necessary during the year—e.g., any change in telephone numbers, restrictions on pick-up, etc. Emergency phone numbers must give us immediate access to someone who can give directions about medication, allergies, illness-related pick-ups, etc.
