

Response to Intervention (RTI<sup>2</sup>) Parent Letter  
Tier 1 to Tier 2  
K-8 Math

Student: \_\_\_\_\_

Date: \_\_\_\_\_

Dear Parent,

Three times a year, each student is given a universal screening assessment *AimsWeb* to determine his or her math abilities. Your child's scores show that he/she is experiencing some challenges in math. Along with the universal screening, your child's progress has been monitored every two weeks or more. Although he/she is receiving direct math instruction daily in Tier 1, he/she has still not shown the needed growth to maintain grade level progress.

Your child will now be receiving an additional 20-30 minutes of math interventions each day in Tier 2. This Tier 2 intervention will be done in small groups with trained personnel using research based materials. Your child's progress will continue to be monitored every two weeks or more. Additional assessments may be completed in order to inform instruction and intervention. It is our goal to provide the best instruction and materials to help your child succeed.

We encourage you to look at your child's math work regularly. Be sure to encourage your child to do his/her best and let them know you believe in his or her ability to improve. If you have questions or would like more information please contact your child's teacher.

Respectfully,

NAME

Math Interventionist

Please note:

*Tier 1* means daily classroom instruction.

*Tier 2* means additional support in a particular area of difficulty relating to Math or English Language Arts. It is usually 30 minutes a day.
